Unmissable: Vinas, an emblematic figure of the historic Halles in the centre of Paris, transferred, along with all the other fruit and vegetable operators, to Rungis Market on its creation in 1969. Bought out by the Sofiprim Group in 1982, Vinas is now one of the leading operators on the trading floor: a turnover of more 40 million euros de CA, 35,000 tonnes of products marketed, over 3,000 m² of sales and refrigerated display space. Its sector-based organisation (Green leave, Tomatoes/Melons, Apples/Pears, Other Fruits, Mushrooms/Herbs, Potatoes/ Garlic/ Brittany produce, Imports, Shipping) means the company can meet the needs of practically every customer operator in the fruit and vegetable sector at Rungis market (retailers, wholesalers, major retail outlets, cash and carry and importers), whether they are established in the Ile-de-France region, elsewhere in France or for export.
